Work Experience

*February 2011 to Present - **Animator*** at Cellufun Games, NYC
Create character animations for the company's online and mobile games. I've animated a range of characters that go from animals to insects. Both bipedal and quadrupeds. This position also requires a solid knowledge on rigging and advance skills on lighting and rendering. I'm expected to take every shot from planning to render

*February 2009 to February 2011 - **Freelance Game Artist*** at Miharo Games, NYC
Created 3D models and textures for four of Miharo's released games. Contributed to game design ideas and marketing decisions. Designed sound effects and composed the music for their games and applications. Designed the Miharo website including, contest registration forms and the Miharo Games Online Store.

*November 2008 to February 2009 - **Marketing Production Artist*** at Sonic Boom Games, NYC
Designed graphic material for computer games and mobile applications. Provided graphic artwork the all of the company's marketing campaigns. This position also involved the resizing of game assets, designing PowerPoint presentations, generating web banners and creating product campaigns for Verizon, Coca-Cola, Red Bull and Heineken.

*February 2008 to November 2008 - **Marketing Graphic Designer*** at FXCM, Forex Capital Markets, NYC
Created web design for two of the company's major trading strategy products, DailyFX and Trading Signals. Also designed other web pages to reside in the company's multi-language sites. Designed and resized banners for internal and external sites. Some of the external sites include CNN Money, Bloomberg and CNBC.
